# Inquiries

Achieving Student Success through Excellence in Teaching

## December 2016

### What do you want to know?

In this inaugural issue: become an Inquiry-based School, weave inquiry and STEM into Pre-K, access ASSET professional development (P-12) and save the date.

[Visit Our Website](#)

### Become an Inquiry-based School

Implement a proven education improvement model in your school and/or district. This three-year program empowers teachers as collaborative leaders and "agents of change" to increase student achievement!

[Learn more](#)

### Weave Inquiry and STEM into Pre-K

Participate in a FREE pilot program exploring inquiry, questioning, and family and community engagement strategies. Early childhood educators (ages 4-5) in the Pittsburgh, PA region will engage in four days of professional development (PQAS/Act 48 credits) and receive instructional materials for their classroom as well as complimentary lunch on scheduled training days. Schools/centers will receive stipends.

[Learn more and apply](#)

### Access ASSET

Attend professional development at no cost. Educators from under-resourced schools and educational organizations can apply to attend upcoming offerings exploring engineering content, formative assessment, early STEM learning, and STEM-focused careers and career pathways. **Inquire with us about no-cost schoolwide or districtwide professional development opportunities.**
